CHRYSALIS COSMETICS

Circumcision Instructions

- No bending lifting or straining for 2 weeks.
- Expect swelling and some bleeding may occur.
- Wear compression underwear as support for the first few weeks after.
- When you go home, you will have a yellow gauze applied around the incision site, this may fall off within the first 28-48 hours, this is normal, you will also be sent with an extra 4-5 gauze, reapply those for the first 3 days 1x a day after showering.
- Bacitracin should be applied a minimum of 4x a day. Apply additionally as needed.
- No sexual activity for a minimum of 4 weeks.
- Showering is okay for the first week, keep harsh hygiene products away from the area.
- Avoid ED treatment medications such as: Testosterone, Tadalafil, Viagra, etc. These can cause erections, and it is recommended to avoid this for at least the first few weeks.
